Director's Column: Tony Topicz

A happy New Year to you and your family!
I have a feeling that 2019 will be a great year for our club. Enclosed in this newsletter is a questionnaire about club participation. We would like all members to consider filling out the questionnaire as this only helps to improve the club. See you at the January meeting!

Ohio Valley Region Model A Ford Club Project to Analyze and Improve Participation

Club Members,
On the following pages are questions to gather information for our Project to Analyze and Improve Participation. Please complete the questionnaire and send it to Art Foreman at adf4man@aol.com by **February 1, 2019**. If you prefer, mail the completed questionnaire to Art Foreman or give the completed questionnaire to Art at the January meeting.

Your response is important for improving participation in our monthly meetings, events, and other areas. We only expect one response per membership but if you and your significant other can't agree, send us two responses. We don't expect precise answers. If you don't know the answer, give us your best guess. If you cannot answer the question, skip to the next question. It only took us about 10 minutes to complete the questionnaire. We will consolidate responses.

To preserve your privacy, your name will not be used in any of the reports. If you have any questions, please call or email Art Foreman at adf4man@aol.com

Thank you for your time,
Art Foreman

"A Tying Guide for Tying Times"

Source: Carrot and Gibb

IF YOU LIKE, HANG THIS GUIDE NEXT TO YOUR MIRROR...Then match your movements to those seen below. The illustrations appear as you would see yourself in the mirror. So when we say "left," we mean the "left" you see in the mirror.

1. Slide the unformed tie under your collar. Extend the end of the right 1" further than the end on the left.

2. Cross the long end over the short end. Then pass it back and up through the loop at your neck, making a loose, overhand knot. Gently tighten the knot so it fits snugly around your neck.

3. Fold the lower hanging end up and to the left, as shown.

Make sure the unfolded end is hanging down over the front of the bow.

4. Pull the bow ends forward and gently squeeze them together, forming an opening behind them. Now, turn to the right and notice the opening you've created.

5. With your left thumb or forefinger push the wide, middle part of the tie and your finger up through the opening from left to right, taking care not to let the end of the of the tie pass all the way through the opening. Use your right hand to help pull the back loop through.

6. Your bow tie will be uneven at this point. Although a few bow tie enthusiasts purport a preference for this look, we suggest that some tightening is in order. This is where you fashion your own unique style: with a large knot or a small one; with dimpled bows or smooth...

7. Gently maneuvering, pull the loops and watch the knot grow smaller. Then, pull both flat ends and loops, lightly tugging up and down to straighten. This tightens the knot...and will smooth out the bow...and viola! Your bow is tied! With a bit of practice, you'll give your bow tie the dash, the flair, the "je ne sais quoi" that is yours and yours alone. And always remember, If at first you don't succeed, tie, tie, again!

Youth Outreach

How can we help to pass on the enjoyment and ease of use of the legendary Model A?

The answer is much easier than you think, get them out and drive

the cars. If you have the chance to offer a younger girl or guy and their parents a ride, take the opportunity.

MARC and MAFCA both offer a youth scholarship program to help youth get started in the hobby and to support them as they may make repairs on the car. If you know someone that is 12-22 years old they may qualify for the program. For more information:
