July, 2020

Director's Column: Jarrod Williams

While COVID-19 still weighs heavily on our minds, we are proceeding in hopes that our Show 'N' Tell car show will happen in September. Please continue to look for and sign up potential car show sponsors. We need more sponsors this year because O'Reilly's changed the number of trophies they would donate.

Our next tour is scheduled for July 12th, hosted by Larry and Debbie Arnold. They always do a wonder job planning tours, lets hope for great weather. See you at the July meeting!

What you missed from the June meeting!

Our June meeting was a success. Thank you to James and Sherri Green for hosting! It was great to finally see everyone in person and catch up. The rain held off and even provided a rainbow over our group. Larry and Debbie Arnold were presented with a trophy for hosting the April Polar Bear Tour.

OVRMAFC July Meeting

The July Meeting will be hosted by:

Jarrod & Melissa Williams
[7973 Miami Ave](#)
[Cincinnati, OH 45243](#)

Dinner served: 6:00PM
Meeting starts: 7:30PM

Chicken wings and ribs from Kroger's, utensils, plates, and napkins will all be provided.

Please bring a side to share, a chair and drinks for yourself. If you are not comfortable sharing food with others, you are free to bring your own food.

Because of the ongoing COVID-19 health crisis, Hamilton County requests that you wear a mask (inside and outside) while not eating and keep a safe distance of 6 feet from each other.

Two Tooth Steering Column

By: AJ Pennington

Taken from: <http://modelclub.com/archives/tech-tips/981>

One day while I was at Snyder's Antique Auto Parts, a fellow asked me how hard it was to adjust the steering box. It seems he was rebuilding a two-tooth box. I told him, "There's nothing to it. Just follow the directions in the Model A Ford Mechanics Handbook." This brought laughs from those in the showroom, but there is a very understandable chapter on assembly and adjustment of the two-tooth box on pages Sect. 1-290 through Sect. 1-305.

If you just want to tighten up your steering, you can make three of the four adjustments without removing the steering column.

First adjustment:

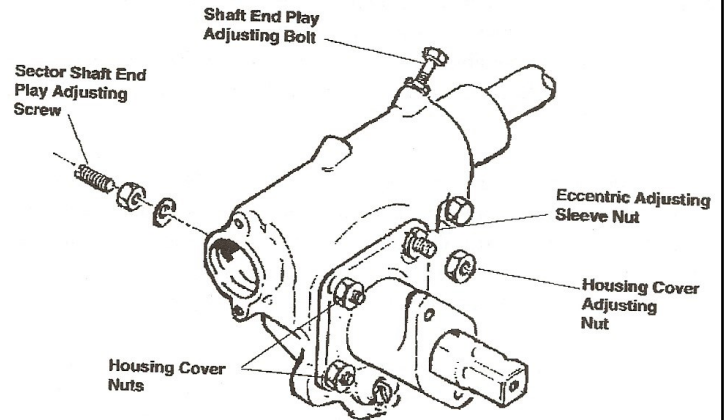

Start by loosening the upper race jam nut on shaft end play bolt. Tighten end play bolt until snug and then back off 1/8 turn. Then tighten the jam nut and upper race locking bolt.

Second adjustment:

Start by loosening the jam nut on sector shaft end play screw. With a stubby screwdriver, tighten sector end play screw and then tighten jam nut.

Third adjustment:

This is the most critical and delicate. Jack the front end of your car up until both front tires clear. Spin steering wheel to make sure it spins free. Then with a 5/8" wrench, loosen the four housing cover nuts about one turn each. With a 7/8" wrench, turn the eccentric adjusting sleeve nut clockwise to tighten. Careful, a little bit goes a long way with this adjustment. Spin the steering wheel lock to lock in place, making sure you don't have a high spot. If you do, you will know it. Turn it counterclockwise to loosen. With the steering aimed straight, wiggle the steering wheel while watching the front tires for play. When satisfied, tighten the four housing nuts and recheck your adjustments.

Adjusting Two-Tooth Sector Steering Gear - From the Ford Service Bulletin

Taken from: https://modelgarage.com/service_bulletin/adjusting-two-tooth-sector-steering-gear/

While practically all dealers' mechanics are familiar with the correct procedure in making the ordinary adjustments on the two-tooth sector design steering gear, investigation shows that all mechanics are not clear on how to correctly centralize the tooth contact in these gears. While it is true that in normal operation this latter adjustment is made infrequently, it is also true that any time a sector or worm is changed correct centralization of the tooth contact must be made in order to secure proper steering gear adjustment. A complete description of the two-tooth sector design steering gear was given in the February, 1929, issue of the Service Bulletin. Due to lack of space the illustrations in figure 644 relating to centralization of tooth contact were necessarily small and we are accordingly reproducing larger views on this page. We request that every dealer have his service manager and mechanics carefully go over the steering gear article outlined in the February, 1929, Service Bulletin paying particular attention to the paragraph entitled "Centralization of Tooth Contact" and referring to the illustrations on this page. Your service manager must be entirely clear on this important adjustment. Have him correctly adjust two or three gears. Then give each of your mechanics individual instruction.

OHIO VALLEY REGION MODEL A FORD CLUB MEETING MINTUES

Wednesday, June 24, 2020

HELD AT THE HOME OF JAMES AND SHERRI GREEN, LIBERTY TOWNSHIP, OHIO

CALL TO ORDER:

The meeting was called to order at 7:30 p.m. by Jarrod Williams, Director, who led a moment of silent remembrance.

PLEDGE OF ALLEGIANCE:

The Pledge of Allegiance was led by Kaleb Green.

ROLL CALL:

The Roll Call was led by Bob Noe, Vice Director. There were 37 members present.

SUNSHINE REPORT:

It was noted that Melanie Gilb and Ralph Hicks are currently recovering in rehab facilities. Tim Schmidt, Treasurer, noted that contributions were made to MAFFI in remembrance of members Esther Meyer and Tom Hull.

Bob and Cindy Green, James and Sherri Green, Jarrod Williams and Ramona Perkins were recognized for celebrating birthdays in March, April, May and June. The following wedding anniversaries for March, April, May and June were recognized: Steve and Sharian Gillie (5 years), Bob and Angel Noe (9 years), Warren and Julie Barnes (24 years), Cliff and Melanie Gilb (38 years), Conrad and Dottie Gerdes (41 years), Tom and Margie Blomer (50 years) and Brenda and Terry Owens (52 years).

CAR CARE GANG:

Tom Blomer and Terry Owens helped a potential new member with a Model A Pick-up and a Coupe.

FASHION COMMITTEE:

Phyllis Pease remarked that the MARC Fashion Committee held an informal virtual meeting last week.

MEMBERSHIP:

One new member with a 1930 Coupe has joined the club but was unable to attend this meeting. The 2020 Roster will be sent in digital format but will also be available for members who prefer a paper copy.

NEWSLETTER:

The AAAOOOGAH is now available in both digital and hard copy. Members wanting to change their method of delivery of the newsletter should contact Jarrod Williams.

RECENT EVENTS:

The annual Polar Bear Tour ("A Tale of Two Ferries"), hosted by Debbie and Larry Arnold, was held March 7-8, 2020. Ten Model A's and two modern cars made the trek to Rising Sun, IN for an afternoon of shopping, touring and eating. After a ferry ride across the Ohio River to Rabbit Hash, KY, the group ventured to General Butler State Park for an evening of socialization, dinner and a ghost tour of General Butler's home. After breakfast at the lodge the next morning the group returned to Ohio via the Anderson Ferry. Bob Green will be awarded the Toilet Seat for difficulty starting his 1940 Ford convertible.

Oeders Lake was the site of the annual club picnic on Sunday, June 7, 2020. Ten Model A's, several modern cars and a '49 Ford were in attendance. Attendees enjoyed fishing with appropriate social distancing precautions.

UPCOMING EVENTS:

The annual Poker Run will be hosted by Debbie and Larry Arnold on Sunday, July 12, 2020. Participants should meet at 9:00 a.m. in the parking lot of Gabriel Brothers (Gabes):

[12035 Lebanon Road](#)
[Sharonville, OH](#)

It is located at the intersection of I-275 and Route 42. Departure will be at 9:30 a.m. and all stops will allow for social distancing.

Cliff Gilb will investigate the possibility of hosting a Putt Putt Golf event in August.

Conrad Gerdes is looking into a visit to the Hay Press in September.

Amy Schroeder is investigating whether or not the Ford Fun Fest will be held as scheduled on Saturday, September 26, 2020.

Art Forman will plan a Mystery Tour for October.

CAR SHOW:

The Reading Car Show is still tentatively scheduled for Sunday, September 13, 2020. Elmer Stanukinos has been informed that O'Reilly's Auto Parts will only furnish 3 large trophies and 150-200 dash plaques. As discussed at the club meeting on May 27, 2020, OVR will be responsible for providing the remaining trophies. Members are asked to solicit \$50 sponsorships for the booklets to offset some of this cost.

Questions still to be answered include if the restrooms will be open and whether food will be permitted to be served.

UPCOMING MEETINGS:

The next meeting will be held on Wednesday, July 22, 2020 at the home of Jarrod and Melissa Williams:

[7973 Miami Ave](#)
[Cincinnati, OH 45243](#)

The club will provide the main entrée. Members are requested to please bring a side to share, a chair and drinks for yourself. If you are not comfortable sharing food with others, you are free to bring your own food. Please wear a mask at all times, and retain a social distance of six feet. Dinner at 6:00 p.m. Meeting at 7:30 p.m.

The August club meeting will be held Wednesday, August 26, 2020 at the home of Debbie and Larry Arnold:

[11653 Carolina Trace](#)
[Harrison, OH 45030](#)

The September, October and November 2020 club meetings will be held at the VFW hall: 3318 Sharon Road, Cincinnati, OH. The November meeting will include the annual club auction.

The annual Holiday Party will be held Sunday, December 6, 2020.

SPLIT THE POT:

Kaleb Green won \$33.

ADJOURNMENT:

The meeting was adjourned at 8:45 p.m. by Jarrod Williams, Director.

SUBMITTED BY:

Phyllis Pease, Secretary.

ONE TWO BUCKLE MY SHOE

Buckles and Shoe Laces of the Model A Era

By: Mary Carlson

Taken from: https://www.mafca.com/downloads/Fashions/Articles/One_Two_Buckle_My_Shoe_2015-07.pdf

Buckles and shoe laces may not be exciting, but they were certainly necessary. As you will see, there's more than one version of the nursery rhyme and there are many options to choose from when you are looking at buckles and laces for those era shoes.

Buckles could be decorative (a subject for another article) as well as used to keep the shoe securely on the foot.

The images show the buckles on the outer edge of the strap or in the center of the strap.

Shoe laces were available in many lengths and materials. Most commonly, they were made of silk, cotton or leather. Note that the ends could be wrapped tight in a fiber or metal tip or end in a metal tassel. Leather laces did not have tips on them. You would not have found colors more stimulating than black, brown, tan and white in the Model A era.

This listing is for silk laces with tassels and tubular cotton laces with fiber tips. They came in 18" and 27" lengths.

| Silk Shoe Laces with metal and tassel tips; 27-inch for Oxfords, 18-inch for "ties." Shipping weight, per pair, 1 ounce; 12 pairs, 4 ounces. | | Tubular Shoe Laces of highly mercerized cotton. Fiber tips. Shipping weight, per pair, 1 ounce; 12 pairs, 4 ounces. | |
|--|-------------------|---|--|
| 27 G 5580—Black; 18-inch. | Per pair . . . 8c | 12 pairs . . . 89c | |
| 27 G 5581—Tan; 18-inch. | Per pair . . . 8c | 12 pairs . . . 89c | |
| 27 G 5582—Black; 27-inch. | Per pair . . . 9c | 12 pairs . . . 98c | |
| 27 G 5583—Tan; 27-inch. | Per pair . . . 9c | 12 pairs . . . 98c | |
| 27 G 5571—Black; 18-inch. | Per pair . . . 6c | 12 pairs . . . 67c | |

The OVRMAC "Car Care Gang"

We are pleased to announce that Dennis Schut is the newest member of the "Car Care Gang". Along with fellow members Tom Blomer and Terry Owens, they will graciously volunteer their time and knowledge about Model A's to help you get through an issue with your car. Just remember they will help you, they will not repair the car for you. After all, knowing how the Model A works is just as much fun as driving one! Give them a call if you need any help or advice.

Tiny Tips from MAFCA Members

Rubber Distributor Insulator

From: David Adair, Oregon City, Oregon

Illustrated by: Stephen Holt, Urbana, Illinois

The lower plate on the distributor can ground out if the ignition cable is screwed in too tight. You can prevent this by gluing a 3/8" x 1/2" piece of bicycle inner tube to the opposite side of the contact point on the bottom plate. Used inner tubes are readily available from most any bike shop. When cut into thin slices, bicycle inner tubes also make a heavy duty rubber band.

If you have a helpful tip about Model A restoration or maintenance to share with MAFCA members, please send it, with a photo or sketch, to the MAFCA office:
